#### THE BRITISH EMPIRE.

IRISH FINANCIAL PANIC.  
London, July 17.—A despatch from Dublin says: "The Munster bank has forty-two branches in Ireland. The decline in shares of the bank led to a rumor that inside parties were throwing the stock on the market at big loss in order to save themselves from future embarrassment. A run on the bank was commenced and its doors are besieged with depositors anxious to draw their money out of the concern. The bank officials, as a precautionary measure to prevent the bank's assets from being thrown on the market, have sold at ruinous figures have insisted that depositors shall give them a week's notice of their intention to withdraw their money before they will be permitted to close their accounts with the bank. The bank is legally entitled to this demand of its officers and it is hoped that by the expiration of that time the scare will at least have partly subsided, and the bank will have realized sufficient money on its assets to meet promptly all demands. People protest against the action of the bank's officials in requiring a week's notice and excitement runs high.

Michael Davitt, on learning of the situation left hastily for the seaside to avoid afflicting himself with the demonstrations of depositors.

IRISH BANKS HARD-PUSHED.  
Dublin, July 17.—The failure of the Munster bank has caused a run on the other Irish banks, and the Hibernian bank has been compelled to require seven day's notice of intention to withdraw deposits. The shares of this bank declined yesterday 2 1/2 cts. If a crisis occurs in the affairs of the Hibernian bank, it is probable help will be given the institution by other banks of Ireland.

THE MUNSTER BANK.  
Cork, Ireland, July 17.—The committee of shareholders of the Munster bank, appointed yesterday to advise means for adjusting the troubles of the institution have approved of the proposal, made by Mr. Shaw, to borrow sufficient money in England to liquidate the bank's present indebtedness. The directors have issued an order to shareholders calling upon them to attend a meeting to be held tomorrow in Dublin in support of Shaw's proposal.

THE MUNSTER BANK'S STATEMENT.  
Cork, Ireland, July 17.—In order to allay public anxiety the branches of the Munster bank have been ordered to publish the decision of a meeting of proprietors held here. An approximate statement of the bank's affairs shows the following liabilities and assets: Liabilities: deposits and current accounts, 2,000,000 pounds; Agent's account 510,000 pounds; interest due, 24,000 pounds; paid up capital 225,000 pounds; reserve 200,000 pounds; acceptances and accumulated profits 90,000 pounds. Assets: bills and overdrafts balances, 2,600,000 pounds; advances on government and other securities, 450,000 pounds. Cash on hand, 410,000 pounds; bank premiums, 410,000.

GOVERNMENT ASSISTANCE.

BRITAIN'S DEFENSES INADEQUATE.  
London, July 17.—A conference of the Empire Defense League was held this morning in the Mansion House. Lord Lennox presided. Mayors of many provincial towns were present. NO AFGHAN NEWS.  
London, July 17.—Sir Michael Hicks-Beach, chancellor, stated that

the government had no further information from the Afghan frontier than that made public yesterday.

SPECIAL INQUIRY ASKED.  
London, July 17.—Mr. Parnell moved this afternoon that the government order a special inquiry into the Maantra murder case.

Mr. Parnell made a long speech in support of his motion. He dwelt upon the mal-administration of the criminal law in Ireland under Earl Spencer, whereby innocent persons had been in some cases condemned and executed, and in other cases had been sentenced to long terms, and he moved, therefore, "That in the opinion of the house of commons, it was the duty of the government to institute a strict inquiry into the judgments and sentences of the Maantra, the Baranilla, the Crossmaglen and the Castle Island murder cases.

Mr. F. Joseph Corbett, home-rule member for Wicklow county, seconded the motion made by Parnell, and said he hoped this government would take a lesson from its predecessor, whom the Parnellite vote deprived of office.

Sir Michael Hicks-Beach said that the present government had nothing to say concerning the merits of the case, and nothing to say in defense of the late government. He was, however, authorized by Earl Spencer, present lord lieutenant of Ireland, to state that the present Irish executive will make careful personal inquiry into the subjects mentioned by Mr. Parnell for investigation; but must satisfy that the government will themselves be compelled to ask the house to resist Mr. Parnell's remarks derogatory to Earl Spencer, a member of the late government.

AMERICAN SUGAR HURTS 'EM.  
London, July 17.—A conference of sugar refiners, at which nearly the whole trade was represented, was held at the Grosvenor hotel, yesterday, at which a resolution was adopted, petitioning the Marquis of Salisbury, premier, to make a tour of the country and bring before the people the alleged injustice of the American government in paying a bounty, through its tariff laws, to American exporters of refined sugar. The refiners claim this bounty is ruinous to the sugar industry of Great Britain.

ENGLAND'S NAVY.  
London, July 17.—A deputation of prominent citizens headed by the lord mayor, called on yesterday at the Admiralty, first lord of the admiralty, to-day and urged the necessity of strengthening the British navy.

Lord Hamilton said the government intended to secure the best opinion of government and naval experts as to the actual condition of the navy, and if the advisers decided that the navy was at present sufficient the government would give that assurance to the public to allay alarm. If on the other hand it should be found by the advisers that the navy lacked in efficiency and that added ships were in full possession of the views of General Wolsey and Sir Evelyn Baring with regard to Egyptian affairs, and Sir Henry Drummond will receive instructions and start for Alexandria within a few days.

A New Way to Pay Old Debts.  
Shakespeare tells how this can be accomplished in one of his immortal plays; but debts to nature must be paid on demand, unless days of grace be obtained through the use of Dr. Pierce's "Golden Medical Discovery." It is not a "cure-all," but invaluable for sore throat, bronchitis, asthma, catarrh of the lungs, and all diseases of the pulmonary system, and other organs, caused by scrofula or "bad blood." Scrofulous ulcers, swelling and tumors are cured by its wonderful alterative actions. By druggists.

Habitual constipation is not only one of the most unpleasant, but at the same time, one of the most injurious conditions of the human system, and is but a forerunner of disease, unless removed. This is usually accomplished by the use of purgatives, which for the time being relieve, but after their immediate effects have passed they leave the system in a worse state than before. To effect a cure it is necessary that the remedy used should be one that not only by its cathartic effect relieves the bowels, but at the same time acts as a tonic, so as to restore the organs to a sound, healthy condition. This, Tricky Ash Bitters will do. It removes the cause and restores health.
